

# GUN TRAFFICKING & CRIME GUNS IN RHODE ISLAND

Gun trafficking is arming lethal violence around the country. Every year, hundreds of thousands of guns are illegally channeled into communities across the country, where they are used in shootings and other violent crimes that terrorize neighborhoods. Gun trafficking is not just a problem of the individuals who move guns from legal commerce to illegal use. It is also a problem of the gun dealers who supply these guns through their own negligence or complicity. State leaders can take action to combat gun trafficking.

## GUN TRAFFICKING IS A SERIOUS PROBLEM IN RHODE ISLAND

Rhode Island is facing a crime gun crisis—and the evidence points squarely at the state’s own federally licensed gun dealers (also known as Federal Firearms Licensees or FFLs). In 2023, law enforcement recovered and traced 755 guns in connection with crimes in Rhode Island. Nearly half of all Rhode Island crime guns were recovered in Providence.<sup>1</sup>

Many of these guns show signs of having been illegally trafficked. Approximately 47 percent of all crime guns recovered in Rhode Island in 2023 were purchased less than three years before their recovery by law enforcement<sup>2</sup>—a key red flag for illegal trafficking.<sup>3</sup>

Time-to-Crime (TTC)	Number of Traces <sup>4</sup>	Percentage of Traces <sup>5</sup>
Less Than 1 Year	93	16%
1 Year to Under 3 Years	182	31%
3 or More Years	310	53%

Between 2017 and 2021, only 19 percent of crime guns recovered in Rhode Island were recovered in the possession of the original purchaser,<sup>6</sup> another significant indication of firearm trafficking.<sup>7</sup> Using data from ATF, it is estimated that 224 crime guns recovered in Rhode Island in 2023 were likely illegally trafficked by individuals who purchased them from FFLs.<sup>8</sup>

## RHODE ISLAND GUN DEALERS SUPPLY A LARGE NUMBER OF CRIME GUNS IN THE STATE

While gun trafficking is often thought of as an issue of guns crossing state or national borders, in reality, trafficking often involves moving guns short distances within a state. In 2023, Rhode Island gun dealers supplied 49 percent of all crime guns recovered and successfully traced in the state.<sup>9</sup>

State Where Gun Originated <sup>10</sup>	Number of Crime Guns Traced from Origin State	Percentage of Total Crime Gun Traces
Rhode Island	287	49%
Massachusetts	55	9%
Florida	42	7%
Georgia	23	4%
North Carolina	21	4%

Trafficked guns in Rhode Island often don't travel far: between 2017 and 2021, 60 percent of all crime guns were recovered in the state within 25 miles of the dealer they were purchased from.<sup>11</sup> The FFLs located in and near cities with a high number of crime gun recoveries are, therefore, the likely source of crime guns in those areas.

The top two methods of firearm trafficking in Rhode Island directly implicate gun dealers. An analysis of ATF trafficking investigations conducted in the ATF Boston Field Division (which covers Rhode Island and neighboring states) between 2017 and 2021 revealed that the top two methods of trafficking were unlicensed dealing and straw purchasing.<sup>12</sup>

Method of Trafficking	Number of Cases
Unlicensed Dealing	194
Straw Purchasing	187
Stolen from a Private Party	68
Stolen from an FFL	12

As of September 2025, there are 107 active licensed gun dealers in Rhode Island;<sup>13</sup> however, ATF research finds that just 15 percent of retail dealers, 38 percent of pawnbrokers, and about 17 percent of manufacturers account for over 90 percent of all firearm sales.<sup>14</sup> Applying this data to Rhode Island, there are likely closer to 17 FFLs actively selling firearms,<sup>15</sup> providing a more manageable number for oversight.

## **GUN TRAFFICKING FUELS COMMUNITY VIOLENCE**

Trafficking is a primary way that individuals who are not legally allowed to buy or possess guns obtain them. According to ATF research, nearly 88 percent of recipients of trafficked guns nationally were prohibited from buying guns because of prior criminal convictions or other prohibitors.<sup>16</sup> Trafficked guns are destined for use in violent crime. Nationally, nearly 28 percent of trafficking investigations involve firearms that were used in furtherance of a drug offense or drug trafficking, 19 percent were used in aggravated assaults, 11 percent were used in homicides, and 9 percent were used in attempted homicides.<sup>17</sup>

Trafficked guns are frequently used in shootings. Nationally, 15 percent of trafficking investigations involve guns that were linked to at least one shooting.<sup>18</sup> Use in shootings is even higher when looking at specific trafficking methods: nearly 24 percent of straw purchasing trafficking cases and 16 percent of unlicensed dealing trafficking cases were linked to at least one shooting.<sup>19</sup>

\* \* \* \* \*

State leaders can take action to address gun trafficking by adopting a comprehensive strategy that includes (1) using data to identify, interrupt, and prosecute trafficking, (2) implementing robust regulatory oversight of gun dealers, and (3) enacting foundational gun safety laws that deter trafficking. <sup>4</sup> Crime gun tracing is an important tool for law enforcement to trace the lawful chain of custody of a firearm in order to generate leads in criminal investigations where firearms are recovered. Crime gun traces are conducted by the federal Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF). The tracing process involves contacting the manufacturer, distributor, and dealer to determine the first retail purchaser of a gun. For more information about the tracing process, see Everytown for Gun Safety Support Fund, “The Supply Side of Violence: How Gun Dealers Fuel Firearm Trafficking,” December 2025, Appendix 1, <https://everytownresearch.org/report/how-gun-dealers-fuel-firearm-trafficking/>.

See “Crime Guns Recovered and Traced, 2017-2021: Crime Guns by Purchaser/Possessor Grouping when Purchaser is Known.”

<sup>7</sup> ATF, “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume II: Crime Guns—Part III: Crime Guns Recovered and Traced within the United States and its Territories,” February 2023, <https://www.atf.gov/firearms/docs/report/nfcta-volume-ii-part-iii-crime-guns-recovered-and-traced-us/download>.

<sup>8</sup> Everytown analysis of ATF, “Firearms Trace Data: Rhode Island- 2023,” and “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume II: Crime Guns—Rhode Island Report” data. To determine the estimated number of traced crime guns likely obtained by traffickers through illegal purchases from FFLs, we took the total number of crime guns traces with a time-to-crime of less than three years (275) recovered in 2023 and then multiplied it by the percentage of crime guns recovered between 2017 and 2021 in the possession of someone other than the purchaser (81 percent).

<sup>9</sup> ATF, “Firearms Trace Data: Rhode Island – 2023.” See “Top 15 Source States for Firearms with a Rhode Island Recovery, 2023.” Analysis limited to crime guns traced to a purchase from a gun dealer. Source state known in 585 traces.

<sup>10</sup> Everytown analysis of ATF, “Firearms Trace Data: Rhode Island – 2023.” See “Top 15 Source States for Firearms with a Rhode Island Recovery, 2023.” Source state known in 585 traces.

<sup>11</sup> ATF, NFCTA, Volume II: Crime Guns—Rhode Island State Report.” See “Crime Guns Recovered and Traced, 2017-2021: Crime Guns by FFL-to-Recovery Location.”

<sup>12</sup> The cases encompass the entire ATF Boston Field Division, which includes the states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. ATF, “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume III: Firearms Trafficking Investigations—Part III: Firearm Trafficking Channels and Methods Used,” April 2024, <https://www.atf.gov/firearms/docs/report/nfcta-volume-iii-part-iii/download>. See Appendix FTC - Firearm Trafficking Channels, Table FTC-05: “Number and Percentage of Cases by ATF Field Division and Selected Firearm Channel Type, 2017 - 2021.” Unlicensed dealing involves an individual buying and selling firearms for profit, but without first obtaining a license from ATF to do so, as federal law requires. A typical instance of unlicensed dealing in furtherance of trafficking is when an individual buys a large number of guns in a few transactions over a short period of time, often purchasing multiples of the same type with the intent of reselling them to other purchasers without conducting a background check. Straw purchasing occurs when someone buys a firearm for someone

---

else, usually someone who is prohibited from purchasing a firearm. For more information about these trafficking methods, see Everytown for Gun Safety Support Fund, “The Supply Side of Violence: How Gun Dealers Fuel Firearm Trafficking,” December 2025, <https://everytownresearch.org/report/how-gun-dealers-fuel-firearm-trafficking/>.

<sup>13</sup> ATF, “State Federal Firearms Listings: Rhode Island,” September 2025, <https://www.atf.gov/firearms/listing-federal-firearms-licenses/>. Includes Type 01 (firearms dealers), Type 02 (pawnbrokers), Type 07 (manufacturers), and Type 08 (importers) FFLs.

<sup>14</sup> According to ATF research, actual sales are concentrated among a small subset of this overall group of licensees: just 15 percent of gun dealers (Type 01 FFLs) account for 92 percent of all retail gun sales, 38 percent of pawnbrokers (Type 02 FFLs) are responsible for 91 percent of pawnshop sales, and 17 percent of manufacturers (Type 07 FFLs) are responsible for 96 percent of retail sales conducted by manufacturers. Because importers (Type 08 FFLs) comprise only 0.5 percent of all estimated sales ATF did not provide a breakdown of the number of FFLs by sales volume and is therefore excluded here. ATF, “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume I: Firearms in Commerce,” May 2022, 67–68, <https://www.atf.gov/firearms/docs/report/national-firearms-commerce-and-trafficking-assessment-firearms-commerce-volume/download>. See Tables SD-03: “Total Type 01 FFLs and EMSV by EMSV Range, 2017–2020;” SD-04: “Type 02 FFLs and EMSV Range, 2017–2020;” and SD-05: “Type 07 FFLs and EMSV Range, 2017–2020.”

<sup>15</sup> Everytown analysis of ATF, Rhode Island FFL Listings, September 2025, and “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume I: Firearms in Commerce” estimated minimum sales volume data. Estimate based on sum of 10 (66\*15%) Type 01 FFLs, 1 (3\*38%) Type 02 FFLs, and 6 (34\*17%) Type 07 FFLs. Estimated minimum sales volume by number of FFLs for Type 08 FFLs was not provided by the ATF and is therefore excluded from this analysis.

<sup>16</sup> ATF Special Agents were able to identify an end recipient of trafficked firearms in 46 percent of the cases studied. In these cases, 12 percent of end recipients had no prior prohibiting convictions. ATF, “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume III: Firearms Trafficking Investigations—Part VI: Characteristics of Firearm Traffickers, End Users, and Defendants,” April 2024, 13, <https://www.atf.gov/firearms/docs/report/nfcta-volume-iii-part-vi/download>. See Table CFT-25a: “Number and Percentage of Cases by Top Five End User Background Characteristics, 2017–2021.”

<sup>17</sup> There can be multiple crimes identified in a firearm trafficking investigation, so these statistics are not mutually exclusive. ATF, “National Firearms Commerce and Trafficking Assessment (NFCTA), Volume III: Firearms Trafficking Investigations—Part IX: Investigation Outcomes,” April 2024, 4, <https://www.atf.gov/firearms/docs/report/nfcta-volume-iii-part-ix/download>. See Figure IO-03: “Top Ten Crimes Identified, 2017–2021.”

<sup>18</sup> ATF Special Agents (SAs) were able to report whether trafficked firearms were or were not used in shootings in approximately 66 percent (6,455 of 9,708) of cases. In these 6,455 investigations, SAs indicated that a trafficked firearm was used in a shooting in 15.1 percent (974) of cases. ATF, “NFCTA, Volume III: Firearms Trafficking Investigations—Part IX: Investigation Outcomes,” 5.

<sup>19</sup> ATF, “NFCTA, Volume III: Firearms Trafficking Investigations—Part IX: Investigation Outcomes,” 5. See Table IO-06: “Total Number of Cases by Trafficking Channel and Use in Shootings, 2017–2021.”
